The Fillmore Silver Spring is the newest edition to downtown Silver Spring's historical arts community. This spectacular 23,000 square foot venue has a private event capacity of 1,200, state-of-the-art sound and lighting system, lavish interiors, professional staff and provides an exceptional culinary experience. It is a multi-million dollar ground-up construction that opened in September of 2011.

The original Fillmore located in San Francisco has its own rich history and traditions that are forever woven into the Fillmore brand. It was a small theatre made famous by the legendary concert promoter, Bill Graham. In the mid 1960's, the Fillmore launched such careers as Janis Joplin, the Grateful Dead and Jefferson Airplane. This theater on the corner of Fillmore Street and Geary Boulevard quickly became a rock hot spot and favorite local hangout. There are now six Fillmore venues across the country all carrying on the energy, passion, and rock-n-roll history that make up the Fillmore experience.

You will find that The Fillmore Silver Spring is a perfect blend of rock and elegance, classic and cutting edge. As your guests enter the wide main lobby, they will enter a venue that includes beautiful hardwood floors, industrial fixtures, original hand painted murals, floor-to-ceiling deep red curtains, classic rock posters and the stunning crystal chandeliers that the Fillmore has become famous for. Your guests will be impressed with the unique style and timelessness that the Fillmore has to offer.

The Fillmore Silver Spring brings superb service, knowledge, style and event planning experience to create an unforgettable event. From start to finish, your event will be thoughtfully planned and flawlessly executed.

Thank you for your interest to host your event at The Fillmore Silver Spring. We look forward to working with you!
