WHY EDEN PHOTOGRAPHY?

- **PASSION.** *When you book with Eden Photography, you become part of our family. We see the world in photos: composition and lighting. This is not a job, it's something we cannot imagine our lives without. Would you trust something as important as wedding memories to someone who "does photography on the side?" Hopefully not. Photography is our passion.*
- **COMMITMENT.** *Eden Photography is committed to exceeding your expectations. We believe in our community and that includes our client family. We are 100% committed to preserving true, fun, natural memories that you can share for years to come.*
- **PURPOSE.** *As our tag line suggests, "Where Photography meets Philanthropy", we believe in supporting a greater good with our work. Currently, we are supporting the Family to Family Foundation. This organization helps families struggling financially get matched with a mentor family, that not only provides support to get them back on their feet, but thrive as an active member of society. Almost our entire net profit currently goes to funding this amazing cause. We proudly support it.*

PROFESSIONALISM. *Eden Photography is owned by two professionals. Adam has a Masters degree in Education and provides leadership consulting to low socioeconomic schools. He also runs a Real Estate investing firm. Heather has a Masters degree in Psychology and an active member of the community advocating positive social change. Together, they are not only great photographers, but great people.*
