

**Venue** – We are an active distillery. We make Enchanted Rock Vodkas, Rebecca Creek Whiskey, Rebecca Creek Single Malt Whiskey and Texas Ranger Whiskey. Our grounds include the distillery building, the tasting room, an adjacent outside deck, a barrel house building, some yard areas with various yard games and scattered oaks and our parking lot. Our venue rents for \$500.00 per event.

**Events** – Small to medium size wedding, rehearsal dinner, bridal shower, bachelor party, birthday party, anniversary party, retirement party, corporate team building event, happy hour party, etc.

**Bar & Bartender Services** – Our bar is a full service bar and, per the TABC, we are allowed to only sell our products at the bar. We have vodka and whiskey. That actually covers a large percentage of the spirits drink categories. A client is allowed to bring in limited beer and wine for their guests who do not consume hard spirits. Our bartender services are billed at \$30.00 per hour for each bartender.

**Catering** – We work with a large number of caterers (The RK Group, Black Tie Affairs and various restaurants, etc.). The venue charges a \$100.00 caterers fee.

**Furnishings** – The venue is an active distillery and all furnishings needs must be supplied. Tables, chairs and linens are usually supplied by the caterer or a company like SA Rentals or Aztec Rentals. Limited table settings can be arranged inside the actual distillery depending on production schedules but mainly outside under the stars which is very popular.

**Entertainment** – We have access to a wide range of acoustical artist as well as full bands. Rebecca Creek Radio (playing the best of country western music) is always available free of charge.

**Gift Shop** – A gift shop with a variety of apparel, barware, candles, head gear and other miscellaneous items is available in the tasting room.

**Security** – Security is required for events with a larger number of guests (exceeding 100). Local police officers are available for hire and are quite helpful with keeping an event running smoothly as well as dealing with any parking and traffic issues.
