Our hospitality company has three restaurants located in the Victoria Public Market with multiple event spaces available within our restaurants and also within the common space of the market. We offer a unique interactive urban market experience where a group can mingle through out the market and be served at one or all three of our concepts: Roast, Taco Stand and La Pasta.

La Pasta event space is inviting, wide-open and fluid with an indoor vibe. Live edge old growth maple tables cover the concrete area with industrial gates opening into the market.

The impressive large communal table seats 25 comfortably and is a focal point of the room. Comfortable yellow chairs fill the room with local art on the walls and modern sputnik lighting and a living-wall.

La Pasta is an interactive experience for our guests where all pasta preparation is presented in full view with a demonstration mirror displaying the imported Italian pasta machine.

From the kitchen, we're making our pastas fresh from scratch and serving our locally sourced Italian menu. Be prepared to be part of the kitchen experience.
