

Frequently Asked Questions

Question: Can we bring our own alcohol or drinks (beer, liquor, sodas, mixers, etc.)?

Answer: No, because we are a TABC-licensed facility, which means that we have the capability to mix and serve drinks. We are happy to assist with any special requests you may have, simply let us know.

Question: Can we provide our own outside catering instead of using your in-house catering?

Answer: Yes, we are happy to accommodate any outside caterer, so long as they are licensed and insured. We charge a vendor-processing fee of \$75 for outside caterers; this allows us to verify the caterer's documents such as health permit and insurance.

Question: Can we hire our own decorator to decorate the facility?

Answer: Yes, though they must be insured and we do not allow the use of nails or tacks on our walls. All none in house items must be removed from the premises after the event or a cleaning fee will be assessed.

Questions: What if my outside vendor does not have insurance?

Answer: You can purchase wedding insurance that will cover your outside vendors. However, please keep in mind that outside caterers must have their own insurance and cannot be covered by blanket insurance policies.
