WIFI INFORMATION

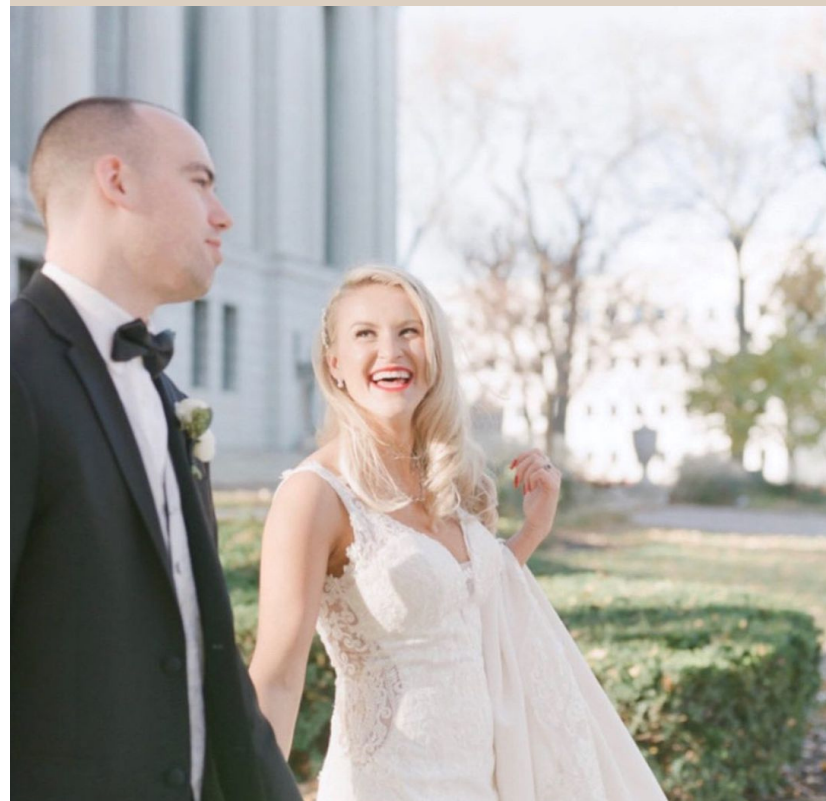

Access to a hardwire internet connection from the venue is preferred. If this is not available, and a stable connection cannot be secured, a mobile device and connection will be used. Internet strength and connectivity cannot be guaranteed.

Packages will cover your ceremony from processional to recessional. Please plan for our team to show up 90 minutes before your ceremony to begin setup.

Ceremonies longer than 60 minutes have a slightly different rate so please let us know if you plan on having a ceremony that long.

We also are available to live stream and film other "main events/formalities" like first dances, toasts, dances or cake cutting.

Many of our couples have us stay to film these events. During our consultation let us know if you would like your reception either live streamed for recorded for later!
