ROCK CITY PARTY

AGES 4-6

This action-packed party allows children to explore rock 'n' roll instruments up-close and see for themselves how music is made on keyboards, drums and guitars. They'll also learn simple musical rhythms - quarter notes, eighth notes, quarter rests - and enjoy putting their newfound musical skills into action during a live drum circle! After hands-on exploration of the instruments at the beginning of the party, the kids will enjoy learning foundational music concepts through movement, games and songs. They will have an opportunity to eat cake and celebrate during the second half of the party. Party length is 90 minutes.

ROCK BIRTHDAY PARTY

AGES 7 +

A jam/recording session where the birthday guest becomes a star. We divide guests into bands and teach everyone to sing or play a song of your choosing on keyboard, guitar, bass, drums or other rhythm instruments. No music experience is necessary. Everyone receives a recording of the birthday band, digitally mastered in our state-of-the-art studio. Guests will have an opportunity to eat cake and celebrate during the second half of the party. Party length is two hours.

KARAOKE PARTY

AGES 6 +

This is the perfect party for kids and adults eager to become a rock star for a day! Designed for ages 6 to adult (the only prerequisite is they must know how to read), the first step is for the birthday guest of honor to select a song from B2R's birthday song list, which includes current pop hits and classic rock gems. The second step is to have fun and rock out! During the party, the guests will work with a vocal instructor on learning the song, as well as receiving proper singing and breathing technique. Everyone receives a recording digitally mastered in our state-of-the-art studio. Guests will have an opportunity to eat cake and celebrate during the second half of the party. Party length is 90 minutes.

DJ BIRTHDAY PARTY

AGES 10 +

Watch the birthday boy or girl become a DJ superstar as everyone learns to use professional DJ turntables, mixers and remix software. Guests pair up to create their own mashups and learn basic DJ scratches such as baby, release, stab, cut and transform. Everyone performs a short set for the group. No music or DJ experience necessary. Guests will have an opportunity to eat cake and celebrate during the second half of the party. Party length is two hours. (Available at select B2R locations only.)

CORPORATE & SOCIAL PARTIES

A party where the guests become rock stars. We divide the group into bands of 4-7 members and teach everyone to sing or play a song of your choosing on keyboard, guitar, bass, drums or other rhythm instruments. No music experience is necessary. The bands then perform their set in front of the audience in our performance hall. We offer an additional option to capture these moments forever via a recording of each band in our state-of-the-art studio. Party times can be extended by request for an additional fee. Alcohol can be served on the premises, but must be served by a licensed, professional bartender or caterer. Party length is two hours.

ADDITIONAL PARTY INFORMATION

We provide the music instructor(s) as well as the music, instruments, party room for refreshments and opening presents, tables, chairs and a special party pack for all the participants. The birthday guest also receives a t-shirt! For Rock Birthday Parties and Karaoke Parties, all partygoers receive a recording of the performance. Food, drink and paper products are not supplied by B2R.
