

## The Solo Harp of Susan W Haas PLAYLIST

The harp is a wonderfully flexible instrument with many possibilities outside the range of what most people traditionally think of as “harp music”. My song list reflects this. It is continually growing, often from the requests of my clients, and may not be completely up to date due to this. Feel free to browse and listen as some have links to audio. Just know that this is not everything. There’s always more “harp-able” music and I love playing your favorites.
