## What sets us apart from the rest...

### AUTHENTICITY

We are not just a building that was built to look like a barn - we are a real barn branded with the authentic markings of its history and legacy! Each wall bears the scars of horses' hooves kicking at the sides and biting at the wood posts that once encompassed their home. We have left as much authenticity as possible to provide our couples and their guests a "real rustic barn experience." Two of our original stalls were left standing and now serve as our bar and catering areas.

### THE RECEPTION BARN

The added elegance of chandeliers, soft white lights and sheer fabrics throughout the reception barn brings to life the true romance and charm of our beautiful venue.

Our farm tables are hand crafted from wooden pallets. Every chair is unique and holds a history and character all of its own. Our china, stemware and flatware are all vintage and unique in individual shape and style.

### THE CEREMONY SITE

Nestled under a grand ole oak tree next to our picturesque six-acre lake adorned with lily pads. Park bench seating and a birchwood arbor are included. We are famous for some of the most beautiful sunsets over the lake... our ceremony site will simply take your breath away!

We bring it all together for your special day, add any of your personal decor items or ours, and the end result is the magical union of rustic combined with elegance for that shabby chic look and style. Once the venue is all set up, and before your guests arrive, we take you on a private tour so that you have the chance to appreciate the beauty and elegance that has been created especially for you on your day.
