

Electric Sky Drone Shows Process

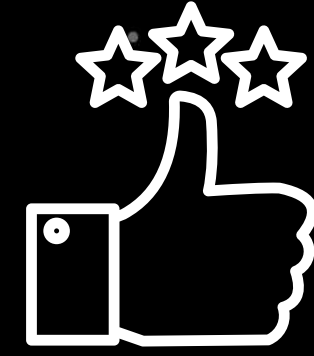

Rise Above the Rest. The Ultimate Level of Captivating Entertainment has Arrived

What We Offer | We are in the business of Creating Epic Memories

At Electric Sky Drone Shows, we are excited to offer you a stunning aerial light show experience like no other. Our fleet of drones range from 50 to 500, and each one is equipped with cutting-edge technology to provide you with a breathtaking display.

We specialize in creating custom light shows for all types of events; including concerts, festivals, weddings, and corporate events. Our experienced team will work closely with you to design a show that meets your unique needs and captures your audience's attention. Get ready to bring the night sky to life.

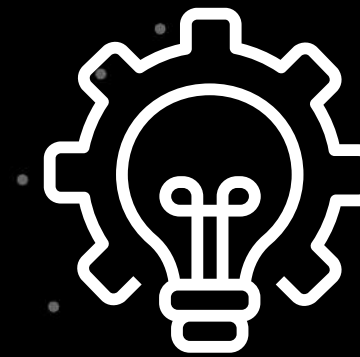

Unforgettable Experience

By offering a unique experience that is different from traditional entertainment options, our drone light shows create a lasting impression on all visual observers.

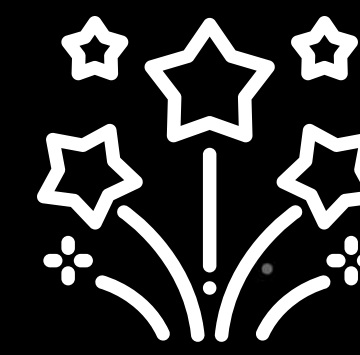

Eco Friendly

Unlike traditional fireworks displays, drone light shows do not release harmful chemicals or pollutants into the air. This means that they do not contribute to air pollution.

Innovated

Cutting-edge technology: Our Drone light shows use the latest technology to create a stunning visual display. By using drones equipped with LED lights, it's possible to create intricate patterns and designs that are impossible to achieve with traditional fireworks or light shows.

Elevated Entertainment

Unique Visual Experience- Drone light shows offer a unique visual experience that cannot be replicated by traditional fireworks displays. Our drones can be programmed to create intricate patterns, designs, and 3D shapes that are mesmerizing to watch.

Drone Services |

Transform any occasion into a magical experience with our drone light shows

50

Drones

Intimate and ideal for smaller gatherings or venues. Most cost effective.

100-150

The Electric Process

Design & Planning:
Together creating a customized drone light show tailored to your event's theme.

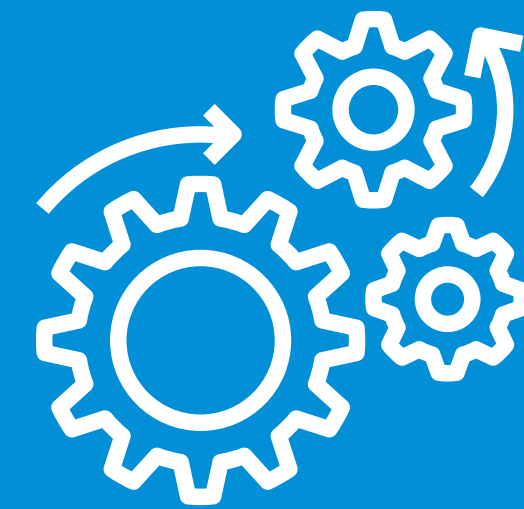

Consultation:
Discuss your vision and event requirements with our expert team.

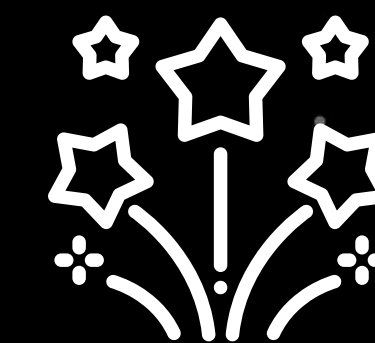

Rehearsal:
We conduct a pre-show rehearsal to ensure everything runs smoothly.

Site Authorization & Assessment:
Our team will secure the necessary permits and assess the location for safety and suitability.

The Electric Process

Showtime:
Sit back, relax, and enjoy the spectacular drone light show!

Essential Components

Experience the dazzling magic of a drone light show by considering these essential components for a seamless and successful performance:

1.

Lead Time:

To ensure your event is executed flawlessly, please contact us at least 2-6 weeks in advance.

2.

Site Authorization:

We handle securing permits and permissions for the show location.

3.

Site Assessment:

Our team will evaluate the safety and suitability of the event venue.

4.

Weather:

Please note that drone light shows may be affected by extreme weather conditions. Up to 6 m/s wind speed during the show.

5.

The Venue Collaboration Process:

We maintain regular communication with the venue representatives to address any concerns, clarify details, and provide updates on progress, ensuring a smooth and collaborative relationship.

Drone Show Packages

Since every drone light show is unique and requires a customized approach, we would need to evaluate the specific details and requirements of your event before we can provide an accurate price quote.

1. Number of drones

2. Peak season

3. Show design complexity

4. Location

We understand that every client has unique needs and requirements for their drone light show, and we strive to provide tailored solutions that meet those needs while also staying within your budget.

We take great pride in the quality and professionalism of our drone light shows, and our pricing reflects the expertise, equipment, and resources required to produce a memorable and safe event.
