## Contemporary Wedding DJ/MC Package- \$1,400

**Our most popular Wedding DJ package** that includes all of the services in the Classic package, and also adds a Ceremony sound system with a wireless mic for the Officiant, an additional hour, and Dance floor lighting!

Includes all the following Professional Wedding Entertainment Services

- **Up to 5 Total Hours of Award-Winning Wedding Services**
- **Professional Wedding DJ and Master of Ceremonies/Event Host** with over 20 years of wedding experience. Introductions, announcements, and smooth timeline direction all handled with class and professionalism.
- **Professional Grade, High-Quality sound equipment** designed for up to 150 guests.
- **Ceremony sound system with a microphone for your Officiant.** (Same venue Ceremony located within 75 yards of the reception set up location)
- **Dance Floor lighting** to set the mood and keep your guests on the floor! Studies show that guests are far more likely to dance with colored lighting as opposed to white lighting. (It's science :) Note: Our Dance Floor lighting is generally a wash of slowly changing color on the dance floor. Let us know if you want something more flashy for a club style feel.
- Personalized planning, preparation, and event coordination as well as unlimited telephone and email access. Timeline coordination during the event to keep things flowing smoothly.
- All local travel, loading and set up included within 20 miles \* **(See details at bottom of PDF)**

**PRO TIP: Remember to include 30 minutes in your timeline so music will be playing while guests are arriving and being seated at the Ceremony location.** For example, if your Ceremony is to begin at 4pm we recommend that Prelude music begins at 330pm to set the mood for arriving guests. (Time is calculated in 30 minute increments)

## Economy Wedding Music Package- \$450 for 3 hours

(Additional time billed at \$100 per hour. No discounts available other than 5% cash discount)

**We understand** that there are some who do not need, or simply cannot afford a Pro Wedding DJ/MC Package. Our Economy package provides professional sound equipment and **an experienced MC/Pro Sound Technician** to set it up and run it for you throughout the event and make any announcements and introductions for you.

### Key Points:

1. **You will provide Spotify playlists** and we will play them for you making sure everything runs smoothly. We will play your music in the order you have chosen.
2. We have many [PUBLIC SPOTIFY PLAYLISTS](#) available for you if it helps with selections.
3. The main difference between this package and our **PRO DJ** packages is a **PRO DJ** will work from your list and add/mix in great music based on what your guests are responding to as well as using a **Professional DJ Mixing board** to make the music flow much better for dancing. Spotify playlists will fade between songs but not intelligently like a seasoned DJ. Great DJs are like musicians, they know how to read the crowd and make them dance!

[CLICK HERE TO SEE WHY YOU WILL NEED A PRO SOUND TECHNICIAN](#)

**The Economy Package above includes all the following professional services.**

- Professional MC/Sound Technician to set up and operate equipment and make sure sound levels are monitored and music is played at appropriate times. You will not have to attend to the music and sound system. That will be handled for you by a professional who will also make some announcements if you like. (Not a Pro DJ or Master of Ceremonies)
- Professional Grade, High-Quality sound equipment designed for weddings with up to 120 guests in a **single set up location**. (Optional larger sound systems available- speak to Michael about your specific needs.)
- All local travel, loading and set up included within 20 miles\* (See details at bottom)
- Hand-held wired microphone for toasts and speeches at main set up location.
