Y'all.... The grazing table.... THE GRAZING TABLE WAS JAW DROPPING. I absolutely cannot even convey... there are no words to express how fantastic Melissa and her team were from start to finish. They went so above and beyond and the food was perfect. We wanted to do a bbq Tex mex hybrid and they knocked it out of the park. They did grilled shrimp for me that was so flippin good!!! Their bbq is obviously delicious but the things they did for us that you wouldn't expect from a bbq spot also stole the show. Definitely don't think they are a one trick pony because they can do it all. They even included Italian in our tasting that we initially were going to use for our rehearsal until rehearsal plans fell through, their Italian food was great too!! Truly the most well rounded accommodating caterers we could have hoped for.... Oh!! They also did a milk and cookies bar our guests adored! Not to mention the bride and groom Togo boxes they had ready for us for our midnight snack. So thoughtful, so professional, SO DELICIOUS!!
