

# CheeseBOX

CheeseBox offers its services in the field of photography, video, event animations and field marketing.

Through photo booths, entertainment and studios, we bring a new dimension to your event. We are constantly looking for new ideas and new technologies, which we could develop for you. We don't just offer photography. Our service is above all professional.

Just like our photos, we seek originality, fun but above all quality. It is thanks to these values that we wish to continue the CheeseBOX adventure.

# CheeseBOX

What is a CheeseBOX?

This is the photo booth you need to **boost your events, your brand or your location.**

**Elegant and discreet, equipped with a very large touch screen making navigation by users fluid and intuitive.**

The quality of digital and printed photos will be high definition thanks to a Reflex camera, a professional flash and a thermal printer.

The CheeseBOX Mini is customizable from A to Z, from photo customization to the home screen as well as the front and back: nothing is left to chance to make it your own!

# Why CheeseBOX?

- We have been producing and developing our CheeseBOXes in-house for 10 years now.
- CheeseBOXs do not require an on-site technician, use is simple and intuitive.
- We offer rental by the event rather than by the hour: 2 hours or 10 hours will be the same price (maximum of one day)!
- They are fully customizable: facades, home screen, photo, sending emails, etc.
- We offer a 24-hour support service with the possibility of connecting remotely to the box (internet connection required)
- We offer turnkey services for your activations or corporate parties, with or without a facilitator.
- We offer a wide choice of options to best suit your needs.
