As an Environmental Learning Center, we have invested in renewable energy, and sustainable practices, and we always encourage our visitors to try and be as environmentally and socially responsible as possible. We are happy to help you implement these practices into your event and provide input for how to minimize the environmental impact of your event. Here are some ideas for starters: Avoid the use of disposables, buy locally grown or produced items when possible, actively promote recycling among your guests, encourage carpooling, etc. Thank you for doing your part to protect the environment!
