## Performance Packet & Booking Information

### Overview

Our wedding band is a group of 5 best friends with BIG personalities. We are original artists as well and pursue music as a full time career. When we started performing weddings (at first on the side) we didn't realize how big the demand was for a non-traditional band. The whole musical aspect of the industry was run by cookie-cutter wedding bands that looked so much more corporate than artistic. So many couple's felt trapped into choosing a band that would simply play songs, but not give the crowd a performance. The reception is meant to be high energy, interactive, and engaging. As artists that tour the country and live the music we play, we truly believe we are the best in the country at providing our weddings with something real. Something that they can remember and take home with them for years to come.

## Style

Their style stems primarily from the Pop-Rock Genre, incorporating fan favorites from the 1980's to today with a high energy playing style. The band incorporates electronic backing tracks when performing modern songs to give that extra dance feel for their non-acoustic style shows. For the full-band set list they primarily play dance-friendly hits that are high tempo, upbeat, and well-known. Think Earth, Wind, and Fire, The Killers, Dave Matthews, to artists like Ed Sheeran and The Chainsmokers, ending all the way to Kanye West. Their key to success is their diversification, so when they are given a style or vibe that clients want, Greg Keys & his crew are confident they can deliver the show that fits your needs. Every Time.

Keys & Co has performed all of the biggest events and weddings for the past three years in the Lowcountry, including the Great Gatsby Gala and sold out shows at Music Farm and The Windjammer.

**“As a band, Greg Keys & Company has a certain way of working in unison as they each have their own moments to shine as individuals between the colossal unity disbursed through the impressive collective of musicians.”**

## Testimonials

"An eye roll or a groan normally accompanies the mention of pop from us avid music listeners, however, the genre is getting a makeover from Greg Keys. The local act is on a mission to rescue popular music from the abyss of meaningless lyrics and emotionless instrumentation, and their new EP is a great stride toward doing just that." -Charleston City Paper

"When Greg Keys came to perform at our private event, everyone was immediately more interested to be there and was eager to dance and further enjoy their night. Its something about his reputation that gets people going because he is an insanely talented artist that always brings high energy and interactive performances each night. We will be booking him for every future event we have, because why settle for less when you can have the best? And for us, we know thats Keys & Co.." - Angelica Fambrosan, event manager.
